ANTI-CORRUPTION POLICY

The Company is committed to comply with all applicable anti-corruption legislation at all times.

If a demand for payment, goods or other things of value ('Demand') is made to the Master, by any official or any contractor or sub-contractor engaged by or acting on behalf of the owners or charterers or any other persons not employed by owners or charterers; and it appears that meeting such a demand would breach any applicable anti-corruption legislation, then the master shall notify the Owners and Charterers as soon as practicable.

If, despite taking reasonable steps, the demand is not withdrawn, Master should seek guidance from Owners and Charterers. Master may issue a letter of protest as guided by Owners or Charterers.
